

REMARKS

The present application is a continuation of previously co-pending parent application entitled ELECTONIC SERVICE MOUNT PACKAGE, Serial No.08/906,952, filed August 6, 1997, now US Patent No. 6,344,785, issued February 5, 2002.

Referring now to the Office Action mailed December 4, 2002, the Examiner rejected Claim 1 for the reasons of record. Applicant has cancelled Claim 1 and is submitting new Claims 2-6, which correspond to application Claims 36-40 from the parent application upon which the present application claims priority. Those application Claims 36-40 were subject to a restriction requirement and were withdrawn from consideration in that parent application. Consideration of Claims 2-6 is now requested.

Applicant is also submitting a copy of an Information Disclosure Statement filed on May 25, 2002, which the Examiner is again requested to consider and make of record.

Respectfully submitted,

Stephen E. Baldwin
Registration No. 27,769
Attorney for Applicant
